INNOVATION & SUPPORT

The 2018-19 school year will see phase two of the revitalization of the Buchanan Intermediate Outdoor Classroom. Teachers are collaborating to create lessons that can be taught in the outdoor setting in accordance to the new Missouri Learning Standards for science. This year we have already established a landscaped rock garden with concrete bench seating and are currently working on wrap-around tree seating and additional log seating. This follows our work from last year where we completed the refurbishing of the existing deck and benches, constructed stairs for accessibility, posted an identifying sign, and built an outdoor chalkboard.
